Install on Docker

Pull the docker image https://hub.docker.com/r/b4bz/homer

Homer docker compose .yml https://github.com/bastienwirtz/homer

```
version: "2"
services:
  jellyfin:
    image: b4bz/homer:latest
    container_name: homer
    environment:
      - PUID=1001
      - PGID=1001
      - PST=America/Los Angeles
    volumes:
      - /mounted/local/storage/location/:/www/assets
    ports:
      - 8091:8080
    restart: always
```

Homer Functions

Server app card status dot:

In the config file, include the "type: Ping" for the status dot.

-Note: Make sure the P is capitalized, with no quotes. It will not work otherwise. This should work with or without quotes.

```
services:
  - name: "Media"
    icon: "fa-solid fa-clapperboard"
    items:
      - name: "Moviez"
        type: Ping   #make sure to include a cap "P"
