Homer Functions

Server app card status dot:

In the config file, include the "type: Ping" for the status dot.

-Note: Make sure the P is capitalized, with no quotes. It will not work otherwise. This should work with or without quotes.

```
services:
  - name: "Media"
    icon: "fa-solid fa-clapperboard"
    items:
      - name: "Moviez"
        type: Ping   #make sure to include a cap "P"
        logo: "assets/icons/film1.png"
        subtitle: "It's Movie Time!"
        tag: "Jellyfin"
