- [Windows Outlook freezing](#)

Windows Outlook freezing

Issue: Outlook will freeze randomly.

Its different for different people/computers.

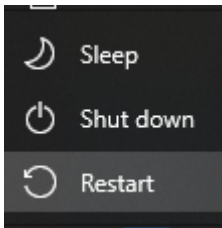

Some will freeze when they click on an email,

Others when they just click onto the app/window

Solution 1:

Restart the computer. Not shutdown.

Do a reboot/restart.

Solution 2:

Do you have both WiFi and LAN connected? If so, pick one. Use only WiFi or, the LAN line.
