

# Windows Outlook freezing

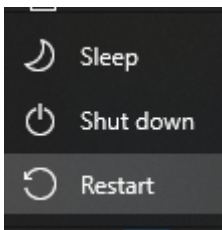

## Issue: Outlook will freeze randomly.

Its different for different people/computers.

Some will freeze when they click on an email,  
Others when they just click onto the app/window

## Solution 1:

Restart the computer. Not shutdown.  
Do a reboot/restart.

## Solution 2:

Do you have both WiFi and LAN connected? If so, pick one. Use only WiFi or, the LAN line.
